

AUDIENCE ACTIVATOR

Audience Intelligence Platform

Complete brand standards and logo usage guide

AUDIENCE ACTIVATOR

Audience Intelligence Platform

INTENT. IDENTITY. ACTIVATION.

Brand essence: Intent. Identity. Activation.

Audience Activator should feel enterprise, precise, secure, and performance-driven. The brand should communicate audience intelligence, identity resolution, intent data, and activation infrastructure - not a generic AI startup or lead vendor.

1. Brand Foundation

Brand Name: Audience Activator

Descriptor: Audience Intelligence Platform

Brand Tagline: Intent. Identity. Activation.

Positioning Statement: Audience Activator is the audience intelligence platform that helps companies identify anonymous visitors, understand buyer intent, and activate high-intent audiences across marketing, sales, financing, and AI-powered workflows.

Do not position as: an AI chatbot, a generic lead company, a list broker, or a marketing agency.

Do position as: an enterprise platform, intelligence layer, identity and intent engine, and activation infrastructure.

2. Logo System

The logo is typography-led with no icon. AUDIENCE appears in Deep Navy or white. ACTIVATOR appears in Electric Blue. The descriptor sits below the main wordmark and should remain lighter and quieter than the brand name.

AUDIENCE ACTIVATOR
———— Audience Intelligence Platform ————
I N T E N T . I D E N T I T Y . A C T I V A T I O N .

Primary logo on white background.

Reverse logo on Deep Navy background.

3. Logo Variations

Primary Lockup: Use for websites, sales pages, proposals, and general brand applications.

Reverse Lockup: Use over dark navy backgrounds.

Horizontal Lockup: Use for website navigation, email signatures, and narrow horizontal placements.

Stacked Lockup: Use for presentation covers, proposal covers, social graphics, and larger placements.

Wordmark Only: Use when the descriptor is too small to be legible.

Favicon: Use the AA monogram only for browser icons, app tiles, and social profile images.

AUDIENCE ACTIVATOR

4. Clear Space and Minimum Size

Maintain clear space around the logo equal to the height of the capital A in AUDIENCE. Do not allow text, images, borders, or buttons to enter this zone.

Minimum digital width: 220px for the full lockup. Below 220px, use the wordmark only.

Minimum print width: 2.0 inches for the full lockup. Below 2.0 inches, use the wordmark only.

Favicon: Use only the AA mark at 16px, 32px, 48px, 180px, and 512px sizes.

5. Incorrect Usage

- Do not add icons to the primary wordmark.
- Do not use gradients inside the letters.
- Do not change Electric Blue to teal, purple, or neon cyan.
- Do not compress, stretch, rotate, outline, or add shadows to the logo.
- Do not use the descriptor if it becomes illegible.
- Do not place the primary navy logo on dark backgrounds. Use the reverse logo instead.

6. Color System

Color	Usage
Deep Navy #0A2540	Primary brand color. Use for text, dark backgrounds, headers, dashboards, and enterprise presentation surfaces.
Electric Blue #1F6FFF	Primary accent color. Use for ACTIVATOR, buttons, links, key metrics, product highlights, and active states.
Slate Gray #6B7280	Secondary text, descriptors, captions, UI labels, and supporting copy.
Light Gray #F5F7FA	Page backgrounds, cards, dividers, dashboards, and neutral panels.
White #FFFFFF	Primary negative space and reverse typography over dark surfaces.

Recommended digital ratio: 70% white/light gray, 20% navy, 10% electric blue. Electric Blue should be used intentionally, not everywhere.

7. Typography

Primary type direction: clean enterprise sans-serif with wide tracking for the logo and strong readability for body copy.

Recommended brand fonts: Inter Tight, Satoshi, Neue Haas Grotesk, or Helvetica Neue.

Fallback web stack: Inter, Helvetica Neue, Arial, sans-serif.

Logo wordmark: uppercase, bold, increased tracking.

Descriptor: title case, regular weight, medium tracking.

Tagline: title case or uppercase depending on placement. Avoid overusing the tagline inside UI where it may feel repetitive.

8. Messaging System

Primary message: Audience Intelligence Platform

Tagline: Intent. Identity. Activation.

Short description: Identify anonymous visitors. Understand buyer intent. Activate audiences across every marketing, sales, and AI channel from a single platform.

Enterprise description: Audience Activator combines identity resolution, intent data, pixel intelligence, attribution, and omnichannel activation into one platform built for performance-driven companies.

9. Website Usage

Use the horizontal or wordmark-only logo in website headers. The full stacked logo works best in hero sections, proposal covers, and brand pages.

Recommended header: AUDIENCE ACTIVATOR with Audience Intelligence Platform below only when vertical space allows.

Navigation tone: Platform, Solutions, Products, Resources, Request Demo.

Hero formula: Audience Activator / Audience Intelligence Platform / Intent. Identity. Activation. / Identify anonymous visitors. Understand buyer intent. Activate audiences across every channel.

10. Email Signature Usage

Use the horizontal wordmark treatment. Keep the email signature simple, lightweight, and compatible with Gmail and Outlook. Avoid large image-only signatures when possible.

Recommended signature fields: name, title, Audience Activator wordmark, descriptor, tagline, website.

11. Social and Presentation Usage

LinkedIn profile: use the AA favicon mark on navy.

LinkedIn banner: use the full logo on Deep Navy with the descriptor and tagline.

Presentation cover: use the stacked logo centered on white or navy.

Proposal pages: use the primary logo top-left with enough clear space.

LinkedIn banner example.

12. Product Architecture

Audience Activator is the parent brand. Products should appear as endorsed products, not separate disconnected brands.

- Audience Activator Super Pixel™
- Audience Activator DealerBDC AI™
- Audience Activator Marketplace Copilot™
- Audience Activator Trade Copilot™
- Audience Activator Buyer Center AI™
- Audience Activator Phone Intelligence™
- Audience Activator We Finance USA™
- Audience Activator Upfit Demand™

13. Voice and Tone

Voice: confident, clear, enterprise, performance-driven, compliance-aware.

Use phrases like: audience intelligence, verified intent, identity resolution, pixel intelligence, activation infrastructure, measurable attribution, high-intent buyers.

Avoid phrases like: cheap leads, AI magic, secret hack, generic list, scraping, chatbot platform, black box targeting.

14. File Inventory

This package includes SVG and PNG logo variations for web, email, presentations, and social usage; favicon files; LinkedIn banner; email signature HTML; and this brand guidelines PDF.
